

Centerfold commands attention as a powerhouse tribute band covering the female legends of the Rock and Roll glory days, such as Pat Benatar, Fleetwood Mac, Heart, Janis Joplin, Cher, Joan Jett, Linda Ronstadt, Tina Turner, and more.

Centerfold features one of Chicagoland's most strikingly gifted female vocalists at center stage whose voice gets audiences fired up, whether belting out the classics of the 70s and 80s, or hits of more recent years, such as those by Pink, Carrie Underwood, and Lady Gaga.

Come out and enjoy a show by Centerfold performed 100% live, without pre-recorded tracks or theatrics, the way live music entertained us when Rock and Roll wasn't just music, it was the soundtrack of our lives!

# Band Bios

**Cindy Safran**

***Lead Vocals*** --- Cindy's powerful vocal talents cover the spectrum of the great Female Legends of Rock, Blues, Motown and Country, including songs by Heart, Benatar, Bangles, Aretha, Joan Jett, Pink and Carrie, to mention a few. Cindy's vocals and stage presence draws in the audience's attention and keeps them wanting more.

**Mark Wedow**

***Guitars keyboards and Lead Vocals*** --- As one of the original founding members of Centerfold, Mark's talents on guitar, keyboards and vocals go hand in hand with his entertainment skills. He's known to wander offstage into the audience at any given time to engage the crowds, as he grinds out solos from the band's song list of favorites we all enjoy.

**Eric Wedow**

***Drums Keyboards and Vocals*** --- Centerfold's one and only drummer and founding member, provides the band's rock steady beat, and literally sits in the driver's seat that keeps the audience rocking to their favorite songs. Known to band members as the human metronome, Eric also lends his perfect pitch talents into building Centerfold's live vocal harmonies... and did we mention he also plays keyboards?

**Chuck Federowicz**

***Bass and Vocals*** --- Chuck provides the bottom half of Centerfold's rhythm section. Also being an original member, Chuck and Eric have worked together long enough to pretty much know what each other will be doing, as they look to play off one another to keep the beat driving in the pocket, or as the band has coined, "keep that freight train running."
